# Supplier.bid

100% SaaS, mobile-enabled

## Software Modules

- **Supplier Registration Portal (with Diversity Tracking)**

Enable corporate branded supplier registration portal to allow potential and existing suppliers to register and update their info and files; allow buyers to search, manage and communicate with the suppliers; track Supplier Diversity (MBE, WBE & SBE), Insurance and Certification; allow suppliers to present additional info, special offers and innovations; on-board with W8/W9, etc.

- **eSourcing RFx & Bidding**

Manage RFI/RFP/RFQ, sealed bids, repeat bids and auto bids; evaluate and score bids; integrate with internal procurement systems; include dynamic questionnaire & configurable workflow.

- **Supplier Contract Tracking**

Track contract terms, timelines, attachments, compliance and performance with internal and external comments.

- **Supplier Performance & Scorecard Management**

Survey internal users and buyers to rate selected suppliers; produce scores automatically and produce visibility for supplier performance; also can be used to evaluate RFx responses, risk assessment, etc.

## Additional Modules and Services

- **Sourcing Planning & Collaboration**

Pool sourcing requests before the actual Purchase Requisition, so procurement can have more time to source and plan; enable end users to participate before and after sourcing; help to increase use for diverse suppliers, global suppliers and innovative suppliers.

- **Global Sourcing & Joint Sourcing Solution**

Reduce cost by using global suppliers, combine spend power to make better deals.

- **2<sup>nd</sup>-Tier Reporting (Subcontract Compliance)**

Allow prime suppliers to report their direct and indirect diversity spend periodically, with automated reminders.

- **Supplier Development & Innovation**

Help suppliers to develop and to comply with procurement requirements and guidelines; assist suppliers to register and onboard to supplier portals; assist in sourcing and quality control; accelerate capacity development including global support; facilitate & track supplier-driven innovations.

- **Patented Score search**

Patented user-defined score search and rank

- **Blockchain Extension**

Immutably track information and documents for escrow and auditing purposes.
